China custody chronology and action record

A chronology records facts; it does not calculate a release date.

Record each event

□ Person, nationality, city and authority: _____

□ Document name and exact wording, date of execution, date received, source and uncertainty: _____

□ Separate criminal detention, arrest, bail or another measure; do not assume a document received today means custody began today.

Questions for counsel

□ Which measure and stage are confirmed? What documents support the dates?

□ Who can appoint counsel, and what work is presently permitted?

□ Which statutory conditions, extensions or recalculations matter? A 37-day combination is not a universal release date or total case duration.

Keep the record current

□ Date/time and Beijing UTC+8: _____; your local time zone: _____

□ Who confirmed the update, next step, responsible person and unresolved issue: _____

□ Do not alter evidence or circulate restricted case files. Share only with authorized recipients.
